NEUROSURGERY

Matthew Mian, MD

Director of functional neurosurgery, HCA HealthONE Swedish · CarePoint Neurosurgery

SPECIALTY
Neurosurgery

PRACTICE AREAS
Movement disorders
Facial pain
Spinal disorders
Brain tumors
Epilepsy

BOARD CERTIFICATION
American Board of Neurological Surgery

MEDICAL EDUCATION
Harvard Medical School

RESIDENCY
Massachusetts General Hospital, Neurosurgery

FELLOWSHIP
Emory University, Stereotactic and Functional Neurosurgery

I prioritize clear and honest discussions with my patients about surgical options, goals, and expectations. My practice spans general neurosurgery, including brain tumors and cervical spine disorders, and functional neurosurgery, including surgery for trigeminal neuralgia, Parkinson's disease, essential tremor, and epilepsy. I use a variety of minimally invasive techniques, including robotic brain and spine surgery, Gamma Knife radiosurgery, and MRI-guided focused ultrasound.

> **To refer a patient:** fax (720) 360-1195 or email MDMian@carepointhc.com, with demographics and a recent clinical note.
